WPCF Argument for a systemic social mechanism that seems to all but guarantee peace logical argument diagram

There is one overall argument and 4 supporting arguments along with 12 supporting reports. Each supporting argument builds upon statements which are built off of logic an reasoning drawn from the reports. The statements add up to conclusions and the supporting conclusions add up to the statement that WPCF can all but guarantee peace with their systemic social mechanism.

Cx: Conclusion X – Conclusion comes from X logical argument.

Sx.y: Statement X.Y – Y statement from X logical Argument

If you are in disagreement with any statement/conclusion, please follow to the associated supporting argument or supporting report for more details on the reasoning.

Overall Argument:

C1: We need to know about what separates us and bonds us to bring peace.

C2: Icebreakers is a safe and effective way to quickly reveal what we need to know about what separates us and what bonds us.

C3: Mass use of Icebreakers and amplification of the revealed bonds of society will stop the fighting.

C4: Amplification of the bonds of society can change the world and stop the fighting and bring us to the final political states of the world where we are at peace.

CF: WPCF can all but guarantee world peace with their systemic social mechanism.

Supporting Argument 1

S1.1: World Peace is Possible. – **Statistics of World Peace Report**

S1.2: Communication and learning about what separates us and bonds us will get us to world peace. – **Statistics of World Peace Report**
